This publication is designed to provide accurate and authoritative information in regard to the subject matter covered and is intended for use by qualified health care practitioners and other qualified professionals in regard to the subject matter covered. It is sold as a guideline in meeting compliance with CMS regulations governing Home Health Agencies and with the understanding that the authors and the publisher are not engaged in rendering medical, legal, accounting, or other professional service. This manual does not instruct--and is not intended to instruct--a user about how to treat any medical condition. The information in this manual is not intended and should not be construed as a substitute for a physician's medical advice or Registered Nurse's input about caring for patients and meeting legal and regulatory requirements. If medical or legal advice or other expert assistance is required, the services of a competent professional person should be sought. The authors, editors, and the publisher expressly disclaim responsibility for any adverse effects or consequences resulting from the use of any of the practices or procedures presented or discussed in this manual. They shall not be liable for any damages whatsoever resulting from the use of this manual.

The authors have made every effort to ensure the accuracy of the information herein. However, appropriate information sources should be consulted, especially for new or unfamiliar policies or procedures. It is the responsibility of every user of this manual to evaluate the appropriateness of a particular opinion in the context of actual clinical situations and with due considerations to new developments. Authors, editors, and the publisher cannot be held responsible for any typographical or other errors found in this book. —*From a Declaration of Principles jointly adopted by a Committee of the American Bar Association and a Committee of Publishers and Associations.*
