

WE LISTEN TO YOU.....

We have always taken great pride in serving our customers beyond just providing a form or reference tool. One of the most important things our customers tell us they count on MED-PASS for is communication. We strive to keep you informed of industry trends and regulatory changes that affect your practice and the resources we offer that support your practice. Even more importantly, we **LISTEN**. The MED-PASS Home Health Team takes every suggestion and comment seriously. It is your suggestions and comments that help make the **MED-PASS Ultimate OASIS-C Forms** the best in the Home Health Industry.

Now that **OASIS-C** is in full swing we have reviewed your suggestions and comments, received over the last 6 months, with our consultants and industry experts and have made enhancements to our forms. Below is an overview, by form, of some of these enhancements.

The MED-PASS Home Health Team would like to thank you for your continued support of our Home Health Products and Reference Tools. We truly value your patronage.

Sincerely,
The Home Health and Hospice Team

ALL OASIS-C FORMS
