Ultimate OASIS - Module 1: Intro & Purposes
Incl OBQI, OBQM & PPS Refinement

Lisa Selman-Holman for MED-PASS

In part one of this 65-minute module Lisa Selman-Holman presents the underlying purposes of the OASIS. This module may also be used for providing an orientation to the OASIS to all staff. Objectives for Module 1 include: 1) present how OASIS data items are used in outcome measurement and 2) present how OASIS data items MO110 and MO826 relate to the HHRG in the Clinical Severity, Functional Status and

Length: 01:05:39

Obtaining Information for Care Planning Items at SOC/ROC

- Care planning items ask about whether interventions have been ordered:
 - Patient-specific parameters for notifying physician of changes in vital signs or other clinical findings
 - Diabetic foot care education
 - Falls prevention interventions
 - Depressions intervention(s)
 - Intervention(s) to prevent pressure ulcers
 - Pressure ulcer treatment based on principles of moist wound healing
